Brief Introduction

Experienced (Austrian) German to (British) English translator focusing on financial market supervision law. Has worked with customers within the Austrian public and private sectors and has been involved in translation of all aspects of banking supervision and resolution – from the cradle (authorisation/licensing) to the grave (orderly wind-down in resolution) since 2014. Translation of a wide variety of primary and secondary Austrian legislation, soft law instruments, as well as web content and financial literacy information. LangTech savvy, pre-dominantly as a power user of Trados and MultiTerm (since 2004) but remains a strong advocate of the preservation of human translators and interpreters, with an active preference to MITL solutions rather than HITL solutions. Personal translation blog (www.transl8r.eu) “In-house translation – outside the box”

Translation-related professional experience

Austrian Financial Market Authority, Vienna 09.2014 - present

Translation (German to English) & Linguistic Quality Assurance, Horizontal Banking Supervision Division, Banking Supervision Department
